Quality in Every Piece

Are you looking for comfortable outdoor poly furniture to complete your patio, gazebo or to just sit and enjoy the view? Are you looking for furniture that you can entertain family and friends with and not spend your time maintaining your outdoor furniture? US AMISH is known for its craftsmanship and quality outdoor furniture. Built with the same craftsmanship as wood furniture; poly furniture is maintenance free furniture that can be left outside all year round.

All of US Amish's furniture is made with highest quality standards for comfort and strength.

- ◆ Frames and arms are built with 1" poly lumber
- ◆ Back and seat slats are built with 3/4" poly lumber
- ◆ A Router is used to cut out all pieces for a beautiful edging, instead of a band saw.
- ◆ Adirondacks have a boxed framed back.
- ◆ Rollback back rests are reinforced for extra stability
- ◆ Backs are designed for comfort and style.
- ◆ Seats are designed with a rolled front edge for comfortable lounging.

Chair Back Styles:

The Adirondack Style originates back to Mountains of Northeastern New York.

The Rollback style named to fit its description, features a higher back in which you can rest your head against, and a formed back to fit your back.

The Plain style is similar to the Rollback back, with the exception it has a shorter back and is not formed to the back. The arms are also narrower than other styles and there are no cupholders. This style is an economical chair with the same quality as all of our styles.

The English Garden style is a traditional back for that perfect spot in your garden to rest and watch your garden grow.

The Mission style is a craftsman design.

Quality Swivel Glider Systems

Stainless Steel Chrome Hardware & Swivels

95% Recycled Plastic Material - Environmentally friendly product

- PVC & BPA Free
- No maintenance such as painting, scraping or replacing
- Termite resistant

Questions & Answers

What material is our furniture made of?

Approximately 95% is from High Density Polyethylene (HDPE), or recycled plastic milk containers.

How can it be durable and comfortable?

HDPE is a naturally flexible polymer that molds to your body for exceptional comfort. It won't crack, break, splinter or peel as our unique recipe doesn't allow it to break down or become brittle from the sun or cold. It's actually a wood substitute; making it as dense as wood and approximately 20% heavier than cedar, without the maintenance.

How do I clean the furniture?

Water will remove most soil. You may use any non-abrasive cleaner; including bleach if necessary to sanitize. High pressure washing is recommended for white pieces. Since the material is non-porous it will not absorb spills that may stain.

How do I store the furniture?

Our furniture is made to withstand extreme climates and temperature changes. Whether you live in freezing cold of Minnesota, the dry desert of Arizona or the salt water of the Florida Keys; our furniture is made to last a lifetime.

Does the color fade?

Unlike most other manufacturer's the material used to fabricate our furniture is considered colorfast. It will not fade more than 3% over a 10year period; a color change that is generally not noticeable to the human eye. The color runs throughout each piece and has a UV-inhibitor incorporated into the material to minimize the chance for any discoloration.

Is assembly required?

We ship fully assembled and blanket wrapped to our dealers.

We do offer direct ship on several items for additional costs to dealer's and their customers to all 48 states. Some assembly is required then. Ask for details.

Is the furniture made in the USA?

Yes, we are proud to say that our full product line is manufactured in the Driftless area of Wisconsin by Amish employees.

We reserve the right to modify or discontinue any design, price, term, color or product offering without prior notification. All Returns maybe subject to restocking charge.

Warranty

USAmish offers a limited warranty up to 5 years for residential enjoyment and 2 years for commercial enjoyment.

Our Polyethylene outdoor furniture products will be free of original defects in workmanship and materials. In the event, that a product item needs to be replaced completely and is no longer offered in our collection; an item of similar value and style will be offered.

Additional charges such as labor and freight/handling are not included in this warranty. Normal wear and tare, scratching or chipping of polyethylene, negligence, abuse, staining, fading, chemical misuse and acts of nature do not pertain to this warranty.

The stainless-steel fasteners are covered as part of this warranty against structural failure. Stainless steel fasteners may rust in certain conditions if not cared for properly; rusting hardware is not covered in this warranty.

Structural failure due to rusting fasteners, damage caused by unauthorized service or repair, fabrication or revisions to original finished product or any attempt to use in a manner other than the purpose for which it is intended is not covered under this warranty

All claims need proof of purchase.
